

Yes I'm Single

A pitch for your Students' Union - Freshers Fair or newsletter slot

We'd like a stall at your Freshers Fair (or a mention in your welcome newsletter). Here's the 30-second version of what we do and why it's an easy yes for your safeguarding sign-off.

What It Is

A free app that gives students a quiet, verified way to signal they're open to meeting someone nearby - no chat, no swiping, no profile wall. The only way to act on a signal is to say hello in person. Sign up is instant with a university email.

Why It's An Easy Yes

- **No chat, no DMs, ever**

Nothing for your welfare team to monitor or police - there's no messaging system to exploit.

- **Selfie + liveness verified**

Every member passes a live selfie and gesture check before they can appear to anyone.

- **Invisible by default**

Visibility is opt-in and instantly revocable. Nobody is 'on display' at your fair or on campus.

- **18+ gate, Block & Report**

Hard age verification at signup, plus permanent bans for any misuse.

- **Free, zero admin for you**

We bring the stall banner and QR code - no cost, no sponsorship ask, no integration.

THE ASK - PICK WHICHEVER IS EASIEST FOR YOU

- 1) A stall or table at your Freshers Fair, staffed by our campus ambassador.
- 2) A single mention with our QR code in your welcome newsletter or Discord/social channel.
- 3) A noticeboard spot in your SU building - we supply the decal.

Ready-To-Paste Newsletter Line

"New this term: Yes I'm Single. Look up, say hello. Sign up free with your university email for a verified, no-chat way to meet people nearby - no swiping, no profiles to scroll."
